

JOB DESCRIPTION

Job Title: Advanced Registered Nurse Practitioner (ARNP) - Orthopaedics

General Summary of Duties for ARNP:

Orthopaedic and Neurosurgical independent practice located in Olympia WA, is looking for a full-time ARNP to join us. We are seeking a high-quality practitioner who is skilled in evaluating and treating injuries and non-operative MSK issues. You will spend time in your own practice working alongside specialized surgeons, physical therapists, and other non-operative providers.

This position is not directly supporting a surgeon. The ARNP will have their own practice helping our patients with their non-operative MSK concerns including sprains, fractures, joint injections, and osteoporosis management.

This position may be asked to help with community events such as high school sports physicals and an occasional evening or weekend meeting.

Required Qualifications:

- Valid and unrestricted Washington State license and DEA or the ability to obtain one.
- Ability and comfort working with an electronic health record (Athena & Epic).
- Ability to assess injuries and chronic pain and diagnose possible issues.
- Ability to confidently read x-rays.
- Ability to do joint injections with or without ultrasound guidance.
- Ability to collaborate with other providers to coordinate the best possible care for the patient(s).
- Positive and professional attitude towards patients and staff.

Salary: \$120,000 - \$175,000 plus additional incentives.

Benefits: Medical, dental, 401k, profit sharing, disability, and CME.

Olympia, Washington is nicely located between Seattle, Washington and Portland, Oregon with access to a variety of activities including hiking, biking, skiing, fishing, camping, and much more. The cost of living is moderate, and the schools are ranked at the highest level by GreatSchools.com.

We offer top level compensation, and an unmatched benefits package. We are located in the Pacific Northwest in a family friendly community with numerous outdoor and recreational opportunities.
