

Joint Replacement

Enjoy your recovery + building back quality of life

mend™ Joint Replacement can be blended with a variety of different things like, your favorite smoothie, sports drink, juice or even yogurt! For optimal results, see the recommended dosage below for how much and how long to take.

RECOMMENDED DOSAGE

For best results, take one serving twice a day, one week prior to surgery and two weeks after surgery. One bottle completes the suggested three-week regimen. Remember to take between meals.

DO NOT TAKE THE MORNING BEFORE SURGERY
CAN BE MIXED DIRECTLY INTO WATER FOR ENJOYABLE TASTE

Joint Replacement

Surgery increases your body's need for nutrition

During recovery from surgery, your body's needs for additional nutrients increase due to stress, fatigue, muscle loss and general higher energy demand to repair damaged tissue.

Numerous clinical studies have shown that supplementing with targeted nutrients will enhance healing and recovery from joint replacement surgery.

Better healing, faster recovery + fewer complication

mend™ Joint Replacement is a proprietary blend of essential amino acids (EAAs) that has been shown in multiple randomized clinical trials to help preserve muscle and enhance your return to function and mobility.

Additional research on EAAs has shown fewer complications in other procedures post-surgery.

See reverse side for how to take Mend.

☑ 70 Calories

☑ 20g Amino Acids

☑ nonGMO

☑ Suitable For Diabetic

SUPPORTED BY STUDIES PUBLISHED IN PRESTIGIOUS JOURNALS
